IEPA CLASS "K" INDUSTRIAL WASTEWATER OPERATOR'S LICENSE TEST PREPARATION COURSE

The Illinois Environmental Protection Agency (IEPA) requires that all companies treating their industrial wastewater have a "Class K" Certified Operator for that site's treatment works (Title 35, Subtitle C, Chapter II, Part 360). The course offered by SCL is designed to provide the operator with the information that is necessary to operate a wastewater treatment system and prepare the operator for certification by the IEPA. Register early! Class size is limited to 16 students.
